STIMULATED RAMAN ADIABATIC PASSAGE IN PHYSICS, CHEMISTRY AND TECHNOLOGY

Current Status and Future Directions 25 Years after the Introduction of STIRAP

**International Symposium at the Technische Universität Kaiserslautern
September 22 – 25, 2015**

This international symposium will bring together experts and interested scientists from a broad range of fields to discuss the current status and future perspective of the STIRAP method and its many different applications.

Organizers

Klaas Bergmann, Kaiserslautern
Bruce Shore, Livermore
Nikolay Vitanov, Sofia

Important dates (www.stirap.com)

expression of interest to participate: open
early bird registration: before May 15
registration: before July 15

International Advisory Board

Vladimir Buzek, Bratislava
Sir Peter L. Knight, London
Gerhard Rempe, München
Yaron Silberberg, Rehovot
Eberhard Tiemann, Hannover
Matthias Weidemüller, Heidelberg
Peter Zoller, Innsbruck
